A
Base model (ESM-2) (lineage J.2_int)
Spearman r (no control)
Partial Spearman r, Grantham rank removed
Spearman r within Grantham bins (matched)
Correlation with mutational accessibility (Spearman r)
no relationship = 0
B
Fine-tuned on influenza HA (lineage J.2_int)
C
Base model (ESM-2) (lineage J.2_int)
Softmax exponent (no control)
Softmax exponent, Grantham spline included
Implicit exponent on accessibility (softmax fit)
D
Fine-tuned on influenza HA (lineage J.2_int)
any
1
2
3
Minimum nucleotide changes needed
