
Base model
Fine-tuned
Wild-type (unmasked)
Masked marginals (main figures)
95% site bootstrap, masked
A
MA22 cell entry
Yu et al. 2026
B
MA22 sera escape
Yu et al. 2026
C
MA22 pH stability
Yu et al. 2026
D
Perth09 preference ratio
Lee et al. 2018
Spearman ρ with measured effect
accessibility weight α
E
Correlation with mutational accessibility, by codon distance
one lineage; no phenotype and no control
Spearman r with accessibility
no relationship = 0
