Base model (ESM-2)
Fine-tuned on influenza HA
Grantham similarity (control)
A
All replacements pooled
10,754 replacements per lineage
no correlation = 0
Influenza H3N2 (Pauly et al.)
Influenza H3N2 (Pauly GTR-nondirectional)
Influenza pan-HA (fourfold GTR)
Influenza H1N1
SARS-CoV-2
Human germline
E. coli
Yeast
Transitions twice as fast (K80)
All changes equal (JC69)
Grantham similarity (control vs spectra)
Grantham similarity (control vs PLMs)
