A
Base model (ESM-2) (lineage J.2_int)
Spearman ρ (no control)
Partial Spearman ρ, Grantham rank removed
Spearman ρ within Grantham bins (matched)
Correlation with mutational accessibility (Spearman ρ)
no relationship = 0
B
Fine-tuned on influenza HA (lineage J.2_int)
C
Softmax exponent (no control)
Softmax exponent, Grantham spline included
Implicit exponent on accessibility (softmax fit)
D
any
1
2
3
Minimum nucleotide changes needed
